PREFACE

The Textbook Society, Karnataka has been engaged in producing new textbooks according to the new syllabi which in turn are designed on the principles of NCF- 2005 since June 2010. Textbooks are prepared in 12 languages: seven of them serve as the media of instruction. From standard I to IV there is the EVS, mathematics and from V to X there are three core subjects namely mathematics, science and social science.

NCF-2005 has a number of special features and they are:

1. connecting knowledge to life activities
2. shifting learning from rote methods
3. enriching the curriculum beyond textbooks
4. providing learning experiences for the construction of knowledge
5. making examinations flexible and integrating them with classroom experiences
6. caring concerns within the democratic policy of the country
7. making education relevant to the present and future needs
8. softening the subject boundaries-integrating knowledge and the joy of learning
9. making the child as the constructor of knowledge

The new books are produced based on three fundamental approaches:

Constructivist approach, Spiral approach and Integrated approach.

The learner is encouraged to think, engage in activities, master skills and competencies. The materials presented in these books are integrated with values. The new books are not examination oriented in their nature. On the other hand, they help the learner in the all-round development of his/ her personality; thus help him/ her become a healthy member of a healthy society and a productive citizen of this country.

The most important objectives of teaching a language are developing listening, speaking, reading, writing and reference skills. These skills have been given a lot of importance in all the language textbooks. Along with the inculcation of these skills, fundamental grammar, opportunities for learners to appreciate beauty and imbibe universal life values have been integrated in language textbooks. When learners master these competencies, they would stop studying textbooks for the sake of passing examinations. In order to help learners master these competencies, a number of paired and group activities, assignments and project work have been included in the textbooks. It is expected that these activities would help learner's master communicative skills. Ultimately, it is expected that students master the art of learning to learn and make use of these competencies in real life.

The Textbook Society expresses grateful thanks to the chairpersons, writers, scrutinizers, artists, staff of DIETs and CTEs and the members of the Editorial Board and printers for helping the Textbook Society in producing these textbooks. A few works of some writers and poets have been included in these textbooks. The Textbook Society is extremely grateful to them for giving their consent for the inclusion of these pieces in the textbooks.

Nagendra Kumar, Managing Director, Karnataka Textbook Society (R.), Bengaluru, Karnataka.

A WORD WITH THE TEACHER

Dear teacher

Welcome to the new English Textbook!

You are meeting a new group of learners. This book has a lot to offer them to improve their English skills.

The book has been designed keeping in mind the principles of second language acquisition and the guidelines laid down in the National Curriculum Framework (2005). The book helps in creating an acquisition rich environment and providing comprehensible input for second language learners.

The objectives of teaching English at this level are:

1. To enable learners to use English fluently, confidently and appropriately in a variety of situations
2. To develop their reading comprehension skills
3. To help them produce short texts, in spoken and written forms, for different purposes
4. To develop their reference skills by encouraging them to use dictionaries and other reference materials
5. To sensitise them towards vocabulary items, pronunciation and grammar.

The new English Textbook has eight units: each unit has a prose and a poem which are thematically connected. There are two lessons for supplementary reading. A detailed outline indicating the skills, vocabulary and grammar items to be learnt in each unit is given in the syllabus grid.

The main texts - prose and poem - given in each unit are aimed at developing the reading skills of the learners.

It is important for learners to learn how to read and understand the main idea of the texts given. They also need to learn how to read and gather specific information from the given texts. Therefore, wherever possible, learners should be encouraged to read the lessons silently.

Comprehension questions may be discussed in small groups and answers may be presented to the class orally first and then in writing. As far as possible, the texts should be related to learners' everyday lives; learners should be encouraged to express their personal views on the topics discussed. The texts can also be used to develop reading aloud skills.

The purpose of supplementary reading is primarily to develop extensive reading skills and to cultivate good reading habits among learners.

A number of activities to develop listening, speaking and writing skills as well as vocabulary, grammar and pronunciation have been suggested in the book.

The different section headings are as follows:

Preparatory Activity: Activities used in the units for warm up/activating learner's background knowledge

Let's Understand: Questions to check reading comprehension skills

Let's Practice Words: Activities for vocabulary building

Let's Listen: Tasks for developing listening skills

Let's Write: Tasks for developing writing skills

Let's Practice Language: Activities for grammar practice

Let's Speak: Speaking Activities

Extended Activity: Games for language development

The content of the book- prose pieces and poems- should be used to develop the language learning skills and enable learners to use English appropriately and naturally in meaningful situations. Learners should be involved in group discussions, pair activities, individual and group presentations to maximize learning opportunities in the class.

In addition to the Textbook, a Workbook has also been prepared. Tasks for Continuous and Comprehensive Evaluation (CCE) have been suggested in these books. These tasks may be used or similar tasks may be designed for conducting formative and summative assessments.

We hope you find these books interesting to share with the learners. We also hope our learners will find them extremely useful in learning English.

About the Revision of Textbooks

Honorable Chief Minister Sri Siddaramaiah who is also the Finance Minister of Karnataka, in his response to the public opinion about the new textbooks from standard I to X, announced, in his 2014-15 budget speech of constituting an expert-committee, to look into the matter. He also spoke of the basic expectations there in, which the textbook experts should follow: “The textbooks should aim at inculcating social equality, moral values, development of personality, scientific temper, critical acumen, secularism and the sense of national commitment”, he said.

Later, for the revision of the textbooks from class I to X, the Department of Education constituted twenty seven committees and passed an order on 24-11-2014. The committees so constituted were subject and class-wise and were in accordance with the standards prescribed. Teachers who are experts in matters of subjects and syllabi were in the committees.

There were already many complaints, and analyses about the textbooks. So, a freehand was given in the order dated 24-11-2014 to the responsible committees to examine and review text and even to prepare new text and revise if necessary. Eventually, a new order was passed on 19-9-2015 which also gave freedom even to re-write the textbooks if necessary. In the same order, it was said that the completely revised textbooks could be put to force from 2017-18 instead of 2016-17.

Many self-inspired individuals and institutions, listing out the wrong information and mistakes there in the text, had sent them to the Education Minister and to the Textbook Society. They were rectified. Before rectification we had exchanged ideas by arranging debates. Discussions had taken place with Primary and Secondary Education Teachers' Associations. Questionnaires were administered among teachers to pool up opinions. Separate meetings were held with teachers, subject inspectors and DIET Principals. Analytical opinions had been collected. To the subject experts of science, social science, mathematics and languages, textbooks were sent in advance and later meetings were held for discussions. Women associations

and science related organizations were also invited for discussions. Thus, on the basis of inputs received from various sources, the textbooks have been revised where ever necessary.

Another important aspect has to be shared here. We constituted three expert committees. They were constituted to make suggestions after making a comparative study of the texts of science, mathematics and social science subjects of central schools (NCERT), along with state textbooks. Thus, the state text books have been enriched based on the comparative analysis and suggestions made by the experts. The state textbooks have been guarded not to go lower in standards than the textbooks of central schools. Besides, these textbooks have been examined alongside with the textbooks of Andhra Pradesh, Kerala, Tamil Nadu and Maharashtra states.

Another clarification has to be given here. Whatever we have done in the committees is only revision; it is not the total preparation of the textbooks. Therefore, the structure of the already prepared textbooks have in no way been affected or distorted. They have only been revised in the background of gender equality, regional representation, national integrity, equality and social harmony. While doing so, the curriculum frames of both central and state have not been transgressed. Besides, the aspirations of the constitution are incorporated carefully. Further, the reviews of the committees were once given to higher expert committees for examination and their opinions have been inculcated into the textbooks.

Finally, we express our grateful thanks to those who strived in all those 27 committees with complete dedication and also to those who served in higher committees. At the same time, we thank all the supervising officers of the Textbook Society, who sincerely worked hard in forming the committees and managed to see the task reach its logical completion. We thank all the members of the staff who cooperated in this venture. Our thanks are also to the subject experts and to the associations who gave valuable suggestions.

UNIT-1 PROSE THE LIGHTHOUSE

Preparatory Activity:

1a. Discuss in pairs: What are some of the useful inventions made by scientists? How useful are these inventions?

1b. What would our life be like without inventions? Discuss how our life will be if we do not have the following (you can speak in your mother tongue):

The electric light- have to study in the dark.

The telephone- _____

The computer- _____

The bicycle- _____

The television- _____

The medicines- _____

The plastic material- _____

The X-ray- _____

2. Make a list of all the words that come to your mind when you hear the word 'lighthouse'. Read out the list to the class.

Find out who has written the maximum number of words.

Now let's read the lesson on the invention and uses of the lighthouse.

Rajiv and his father Madhav were very happy that day. Rajiv was especially thrilled because his father would take him out on a visit to the lighthouse. They started out in the evening by 5 p.m. and reached the shore by 6 p.m. Madhav pointed out to the lighthouse in the distance. It was a tall, strong building in the shape of a tower with powerful lights at the top.

Rajiv asked his father, “Papa, what is the use of these lighthouses?” Madhav said, “They help the sailors to know where the land is and what place they are near. Sometimes they are on the seashore and sometimes in the sea. They are in places which are dangerous to ships and they help to warn and guide the sailors.”

Rajiv was curious. He said, “But how do they work?”

Madhav replied, “Modern lighthouses use powerful electric lights.”

Thrilled: excited, (ಪುಳಕ, ರೋಮಾಂಚನ)

Sailor: one who travels in the sea, ನಾವಿಕ

Shore: land next to the sea

Rajiv asked, “But what about those days when there was no electricity?”

Madhav laughed, “You are a clever boy, my son. In olden days, wood fires would be lit in high places on the shore. Later, a large number of candles were used with glass around them to keep out the wind.”

“You know Rajiv, in those days before lighthouses were built, sailors who got lost in the sea had no way of getting back to land. They also had the danger of dashing against high rocks in the darkness in the sea or being unable to see which was a safe place to land. These lighthouses guided them to safety.”

Rajiv asked, “Papa when was the first lighthouse built?” “I don’t know, my son,” Madhav replied. “But I believe that in the olden days many fishermen were lost in the sea and were unable to return home. The people on the land

were worried and yet helpless to guide them. Then a group of clever young men hit upon this idea. They collected a few huge logs and lots of dry branches and set fire to them. They were laughed at by elders. But they continued to keep the fire burning. In the early hours of next morning, the fishermen sailed home. They said that they had been guided from the land and saved only because of the light of this fire, which they had seen from a distance.”

Rajiv exclaimed, “How clever of the humans!”

Madhav said, “Yes. Now, shall we go home after you have your favourite ice cream?”

Rajiv said, “Oh, yes Papa, thank you.”

Remember

1. A **trip** is a short visit to some place, after which you return home.
2. A **journey** means going from one place to another over a long distance.

THOMAS ALVA EDISON

Thomas Alva Edison,
A most unusual boy,
Never really bothered much
With any childish toy.

His teacher thought he couldn't learn
And sent him home from school,
But Tommy's mother knew for sure
He wasn't any fool.

He worked as news boy on a train,
He learnt to telegraph.
The way he concentrated
Made some people laugh.

Thomas Alva Edison
had inventions by the score.
In his laboratory
he kept inventing more.

The phonograph, electric light
(With fuses sockets too),
A super storage battery,
And movies, were a few.

If not for Mr Edison
How dull our lives would be!
We might not have the radio,
The X-ray, or TV.

POEM SYMPATHY

Preparatory activity:

I. Read the story given below and suggest a suitable title to it.

A sweet little girl sees a thin little bird in a park. She is filled with sympathy for the little bird. She thinks that the bird must be feeling very

cold since it has no clothes. The bird too feels deep sympathy for the little girl. The bird thinks that the little girl does not have a single feather on her body, so she must be feeling very cold. Thus both the little girl and the little bird shiver thinking of each other's pain.

Now let us read the poem 'Sympathy'.

I lay in sorrow, deep depressed...

My grief a proud man heard...

His looks were cold. He gave me gold.

But not a kindly word.

My sorrow passed- I paid him back

The gold he gave to me.

Then stood erect and spoke my thanks

And blessed his charity...

I lay in want, and grief and pain.

A poor man passed my way.

He bound my head. He gave me bread.

He watched me night and day.

How shall I pay him back again

For all he did to me?

Oh! Gold is great. But greater far

Is heavenly sympathy!

UNIT-3 PROSE

HOW DO BEES MAKE HONEY?

Preparatory Activity:

**1. Look at the following pictures and their descriptions. Match them.
(Draw lines)**

A	B
1. 	(a) Honeycomb
2. 	(b) Honeybee
3. 	(c) Beehive
4. 	(d) Honey-making

Let's read the lesson on honey making. While reading, find answers for the following questions:

1. What is honey used for?
2. Where do bees collect nectar from?

Honey is the oldest sweet used by people. It is a natural sugar made by bees. It contains sugar, proteins, iron and calcium. We can digest honey very easily. It calms a cough and soothes a sore throat. It is also known for its ability to kill bacteria.

Let us now learn about making honey. Honey-making is not very simple. Honey bees start the honey-making process by visiting flowers and collecting nectar. They gather nectar in the spring when most flowers and plants are in bloom. They use their long, tube like tongues to suck the nectar out of the flowers.

They store the nectar in their stomachs (honey sacs) and carry it to the beehive. While inside the bee's stomach for about half an hour, the nectar mixes with the proteins and enzymes produced by the bees. The nectar is thus converted into honey. The bees then drop the honey into the honeycombs (hexagonal cells made of wax produced by the bees). The bees repeat the process until the combs are full.

Word meanings:

nectar: a sweet fluid produced by flowers and made into honey by bees

in bloom: with the flowers fully open

honey sac: also called honey stomach

hive: beehive; a structure wherein bees live and make honey

enzyme: chemical substance that is produced

To prepare for long-term storage, the bees fan their wings to evaporate and thicken the honey (note: nectar has 80% water and honey has only about 14-18% water). When this is done, the bees cap the honeycomb with wax and move on to the next empty comb. So, in a nutshell, the honey we eat is nectar that honey bees have collected, regurgitated and dehydrated to enhance its nutritional properties.

Word meanings:

fan (v): make air move around

evaporate: turn from liquid into vapour

honeycomb: a block of wax full of six-sided holes in which bees store honey

hexagonal: having six sides

wax: smooth substance made by bees, to seal the honey filled cells

Honey bees are divided as house bees and field bees. The house bees keep the houses clean and well ventilated. They build new combs to store honey. Field bees are older bees. They go away from the house. Their job is to search for nectar.

Word meanings:

regurgitate: bring food that you have already swallowed, back into your mouth

dehydrate: remove the water from something

ventilate: admit fresh air

Honey bees do not live long. At the time of honey gathering season they work very hard. As a result, a honey bee does not live longer than a month. Around two thousand bees die every day in a honey-making hive. The queen bee lays eggs and she maintains the population of the hive.

Let's Understand:

C1. Answer the following questions in a word, a phrase or a sentence each:

1. What does honey contain?
2. Why do bees fan honey?
3. Where do bees store the honey?
4. What is a honeycomb?
5. How long does a honey bee live?
6. Read the lesson again and write two things that the bees do to produce honey.
7. Mention the work done by the house bees and field bees.

C2. Discuss the following questions in small groups and present your answers to the whole class:

1. Do you think honey bees are hard working? Give reasons.
2. Have you ever tasted honey? Have you seen a bee hive or a honey comb?
3. What do we use honey for?
4. Imagine that you are a honey bee. Explain how you make honey.
5. Read the lesson carefully and find out the steps followed by bees in making honey. Then complete the flow chart given below.

The Honey-making Process:

1st step: Bees feed on the flowers and plants

2nd step: _____

3rd step: _____

4th step: _____

5th step: _____

6th step: _____

Let's Practise Words:

V2. Make meaningful phrases or sentences using the above words. One has been done for you.

Little children, never give
Pain to things that feel and live.
Let the gentle robin come
For the crumbs you save at home.

As his meat you throw along
He'll repay you with a song.
Never hurt the timid hare
Peeping from her green grass lair.

Let her come and sport and play
On the lawn at close of day.
The little lark goes soaring high
To the bright windows of the sky.

Singing as if's were always spring
And fluttering on an untired wing
Oh! Let him sing his happy song
Nor do these gentle creatures wrong.

UNIT-4 PROSE THE KING'S MINISTERS

Preparatory activity:

1. Read the title of the story. Who do you think is the king in this story? Can you guess?
2. Who are the ministers? Guess.
3. Do you know any story about forest animals? Narrate one such story in English or your mother tongue.

Let us read the story and enjoy:

There was a lion who was the king of the forest. He was fierce and strong. "A king must have ministers to help him," the lion thought one day. And he called a fox.

"You are known to be very wise and clever. I want you to be my Home Minister."

"I thank you for this honour, Your Majesty," said the fox. Then the king called a leopard and said, "You are known to be very alert and swift-footed. You'll be my Defense Minister."

“Thank you, Your Majesty,” said the leopard. The next to be called was a crow. “You can fly high in the sky, so you’ll be my Minister for External Affairs.”

“I am grateful to you, Your Majesty,” said the crow. The three ministers swore to remain loyal to the king and the lion in return promised to give them food and protection.

When the lion went hunting, they helped him to find the prey. After having his fill, he would leave the remains for them. Thus they always had enough to eat.

Word meanings:

swift-footed: fast in walking and running

swore: promised something very seriously

prey: animal or bird hunted for food

having his fill: eating as much as he could

One day the crow said to the king, “Your Majesty, have you ever eaten camel meat? It is very tasty.” The lion had never seen a camel, but he liked the idea of tasting camel meat.

“Where can we get a camel?” the king asked. “I have seen a lone camel in a desert. It looked very fat and big,” said the crow.

Next morning the lion and his three ministers set off for the desert. They had to travel for miles. At last they reached the desert. The hot sand of the desert burnt the lion’s paws.

“Stop!” roared the lion. “Let’s go back to the forest. I don’t care for camel meat.” The three ministers didn’t want to lose this opportunity of

enjoying camel meat. But they could eat it only after the lion had killed the camel.

Word meanings:

lone: without companion

set off: begin a journey

paw: the foot of an animal that has claws or nails

off: away

(Question: Did the lion reach the place where the camel was? Why do you think so? Justify your answer.)

The clever fox at once thought of a plan. Off he ran and came to the place where the camel was sitting. “Hello, friend!” he said to the camel. “How lucky you are! Our king has invited you to his court. Now please hurry up and come with me.”

“I haven’t heard of any king,” said the camel. “I know only my master for whom I carry heavy loads across the desert.”

The fox said, “Our king is the brave lion. He has killed your cruel master, and now you’re free. The good king has invited you to come and live with him in the forest.”

The camel followed the fox happily. When they reached the lion’s camp, the crow and the leopard were surprised. Even the lion was pleased in spite of his burnt paws.

The camel was presented to the king. “Get on the camel’s back, Your Majesty,” said the fox. “We’ll return home first.”

The lion at once jumped on the camel’s back. The leopard and the fox sat behind him. With the crow flying ahead as a guide, they reached the forest all hungry and tired.

The three ministers looked at the camel with greedy eyes. The lion knew what his ministers were thinking.

He turned to the camel and said, “Friend, I must thank you for saving my life. You are welcome to live with me in my forest as long as you like. I promise you my protection.”

The ministers were shocked to hear this. They had all the time been longing to eat the camel’s meat. But they said nothing as they were afraid of the king.

The lion, too, was feeling very hungry. But his paws were badly burnt and he couldn’t go to hunt by himself.

“O Fox, Leopard and Crow!” he said, “Don’t you see I am tired and hungry? Go at once and get me some food.”

The ministers had to obey the king. So they went, but not very far. They sat down under a tree to discuss what to do. The fox came up with a clever plan. The others agreed to it. And back they went to the king.

Bowing low, the crow stepped forward first.

“Your Majesty,” he said, “we are sorry that we’ve found no food. But we can’t let you starve. I am your most faithful servant and you can eat me.

It'll be my pleasure if I can satisfy your hunger."

The fox at once pushed the crow aside and said, "O King! Please eat me first. I have more flesh than the crow."

Then the leopard rushed in and said, "I'm even bigger, Your Majesty. You can eat me first."

The camel was deeply moved by the loyalty shown by the three ministers. He too thought it his duty to offer himself as food for the king. "Your Majesty," he said, "these three ministers of yours can be so useful to you. Therefore, I pray that you eat me instead."

Hardly had the camel spoken these words when the three ministers got ready to pounce on him. But the lion stopped them immediately and said, "You're all so true and faithful to me. I'm deeply touched by your offers, and I accept them all. I shall eat all of you, but in the same order in which you offered yourselves."

Word meanings:

protection: safety from harm

long (v): want very much

come up with: find; suggest

starve: die of hunger

pounce: make a sudden attack

The ministers looked at each other. There was no moment to lose. Away flew the crow! Away ran the fox! And away fled the leopard!

The lion had a hearty laugh. He turned to the camel and said, "You have proved my most loving and loyal friend. You shall live with me all your life. No harm shall ever come to you." And the two lived on happily together.

Word meanings:

flee: run away

hearty: loud and cheerful

All creatures great and small,

Each little flower that opens,
Each little bird that sings,

He made their tiny wings.

The rich man in his castle,
The poor man at his gate,
He made them, high or lowly,
And ordered their estate.

The purple headed mountains,
The river running by,
The sunset and the morning
That brightens up the sky.

The cold wind in the winter,
The pleasant summer sun,
The ripe fruits in the garden,
He made them every one.

The tall trees in the greenwood,
The meadows where we play,
The rushes by the water,
To gather every day.

He gave us eyes to see them,
And lips that we might tell
How great is God Almighty,
Who has made all things well.

UNIT-5 PROSE A CHAT WITH A GRASSHOPPER

Anonymous

2. Can you draw the picture of a grasshopper? What do you know about grasshoppers?

Let's read and enjoy the lesson:

One day students of class 4 visited a park with their class teacher. All of them enjoyed and played well in the park. While they were playing and enjoying, Roshan, Teena, Rani and Ani saw a green insect flying around and sitting on the stem of a tree. They were surprised to see it. They slowly went near the insect.

Raju: Wow! What a beautiful insect!

Ramya: May I know your name, please?

Hoppi: I'm a summer time singer. I have several legs and eyes. I am farmer's friend. Can you guess who I am?

Raju: You're **ಮಿಡತೆ**

Hoppi: Yes, I'm a grasshopper.

Rani: Where do you live? Where can we find you?

Hoppi: I live in different places. You can find me everywhere! You'll find 11,000 to 18,000 varieties of grasshoppers in this world.

Raju: OK my dear, tell me how you fly.

Hoppi: I have two sets of wings for flying. Do you have wings, children?

Ani: No, we don't have wings; we want to fly like you.

Hoppi: OK, I'll teach you how to fly.

(Children, would you like to fly like a grasshopper? Why/ Why not?)

All the friends are happy and dream of flying with the grasshopper.

Ramya: We have two legs to walk, jump and run around. How many legs do you have?

Hoppi: Ahhh... I have three pairs of strong legs. I can jump and walk like you.

Rani: Hoppi, how do you escape from enemies?

Hoppi: Oh, they can't catch me so easily. I have five eyes and an antenna. The antenna helps me to sense danger and I'll swiftly escape.

Ramya: Now you're not trying to escape from us, are you?

Hoppi: I'm your friend, right? I trust you. I'm not scared. (The children and Hoppi start playing)

Raju: (observing the body)... Hoppi, we have two ears. Do you also have ears?

Hoppi: I don't have ears like you, but the antenna helps me to pick up vibrations from the air and the ground.

Ramya: Hoppi, I'm very hungry. Rani, Raju, Ani and I are going out for lunch. Would you like to join us for lunch?

Hoppi: No, I won't eat idlies, dosa, rice or chapatti like you. I eat plants, wheat, oat, corn and barley.

Rani: It's getting late. Mam will scold us. We need to go. Nice to meet you, Hoppi. Bye.

Hoppi: Nice to meet you too. Bye, take care. See you soon!

Here are some more facts about grasshoppers. Please read them.

The Body: Grasshoppers have an exoskeleton which means the skeleton is on the outside of their body. The grasshopper also has three pairs of very strong legs. They can walk and jump twenty times the length of their body.

Music maker: If you hear a chirp chirp on a summer's night, it could be a male grasshopper trying to attract a mate, or warn off other males. They do this by rubbing their back leg against their forewing. Other grasshoppers like the Band-winged Grasshopper will snap hind wings. This makes a weird crackling sound.

Friend or Foe?

1. Grasshoppers are actually a help to farmers.
2. The Turnbull is a type of grasshopper that will dine on the weeds that kill crops. Two-striped grasshopper will eat plants that are toxic to cattle.

The white tiger is about three metres long and weighs approximately 180-258 kg. It has blue eyes, and a pink nose. It has a creamy white fur covered with red stripes. The white Bengal tiger lives in grassy or swampy areas and forests, where it can be well camouflaged.

The white tigers are good swimmers, but very poor climbers. In spite of being a slow runner, they are stealthy enough to catch any prey in their sight. White tigers are solitary animals who mostly hunt at night.

4. Do you know any other specially abled persons who have done great things in their lives? Describe the achievements of such persons.

Introduction:

No one is born great. One becomes great by his deeds; willpower, patience and perseverance make a person overcome his/ her weaknesses and disabilities to achieve his/ her goal. Here are two stories of athletes who have achieved their best, in spite of their physical challenges. They were differently abled indeed!

Let's Read:

The 1992 Olympics had put Barcelona on the map of the world. Thousands of athletes take part in the games. Why do so many countries send their teams to the Olympics? It is because the Olympics is one of the world's biggest events. It is an honour for any country to send her athletes to take part

in these games. It is not success or failure that counts; what matters is participation in the games.

The players put in their best efforts to win. They want to set a new record and become the world's best ever.

A few among such players have already been victims of accidents; a few others have been victims of diseases. Yet none of these see themselves as disabled. They are eager to show that they are champions in their own fields. One such champion was Wilma Rudolf of the USA. She is popularly known as the 'Black Gazelle'. She had the speed and grace of a deer.

Wilma belonged to a large Negro family. In fact, she was the fourteenth child and was very weak when she was born. At the age of four, she had an attack of polio and was in bed for two long years. The doctors recommended regular massages to get her limp leg back to normal. Each member in her family spent some time massaging her leg and in course of time she was able to walk. She, however, needed special shoes.

As her legs became a little stronger, she began to run about and play. At no time did she feel that she was physically handicapped. As years passed, she improved in health and grew strong enough to play basketball for her school. She was always cheerful and active, and was full of hope that she would one day be a great player.

A trainer of athletes happened to meet her one day. He saw that she was a talented girl and could become a sprinter. She took regular lessons from this coach, which helped her join the American Olympic team that went to Melbourne. At the next Olympics in Rome, she became a superstar and won three gold medals. She used to say jokingly, "I run fast because mine is a large family and I need to get to the dining table first!"

Another champion who suffered a lot as a boy was Rafer Johnson. When he was only twelve, his left leg was badly crushed in a machine. The front of one of the toes was hanging out as though it would fall off. The surgeon who treated him feared that the entire leg might have to be cut off. Rafer was very much upset. All the time he was in bed he prayed to God for His mercy. He grew better day by day and the surgeon could finally save his leg, but it did not heal completely.

Rafer's interest in sport was so strong that he did not worry about his weak leg. He often had difficulty in wearing spiked shoes, but this did not stop him from having regular practice. He worked hard day and night and was finally selected for the Olympics. He took part in the decathlon and won the first place. He was called the “the greatest all round athlete in the world”.

Both these champions had a dream: they set themselves a goal to achieve the dream; they worked with a will to reach this goal. Their dreams came true and they became world famous athletes.

They who reach the top, boys,

They get kicked until they swoon

They die from hunger,

My people

They excavate gold, but they don't get a meal;

They weave cloth, but they go naked,

My people.

They plough the field and they sow the seeds

They cut the crops and they are baked in the sun,

My people.

They come home empty handed

They heave a deep deep sigh

They live in misery,

My people.

They build the shops and they raise the bungalows

They get into heavy debts,

My people

When they collapse on the street, they don't cry for

Help, they suppress their cries,
My people.

They pay interest through their noses,
They become ash in the fire of fiery speeches, My people
For the God-loving men who eat their fill
They prepare foot-wear,
My people.

They fall at other's feet, and they get kicked
They are so devoted,
My people.

They listen to anything said to them
They live on air,

Introduction:

In this tender, beautiful and emotional letter to his daughters (Malia, 10 and Sasha, 7), America's former President Barack Obama tells his children why he decided to contest for the President's post. He also tells us what he wants for his children.

Dear Malia and Sasha,

I know that you've both had a lot of fun these last two years on the campaign trail, going to picnics and parades and state fairs, eating all sorts of junk food your mother and I probably shouldn't have let you have. But I also know that it hasn't always been easy for you and Mom, and that as excited as you both are about that new Puppy. It doesn't make up for all the time we've been apart. I know how much I've missed these past two years, and today I want to tell you a little more about why I decided to take our family on this journey.

Word meanings:

Campaign trail: a series of things that a politician or political party does to try to win in an election

Parade: a public procession celebrating a special day or event

Make up for something: take the place of something that has been lost

When I was a young man, I thought life was all about me- about how I'd make my way in the world, become successful, and get the things I want. But then the two of you came into my world with all your curiosity and mischief and those smiles that never fail to fill my heart and light up my day. And suddenly, all my big plans for myself didn't seem so important anymore. I soon found that the greatest joy in my life was the joy I saw in yours. And I realized that my own life wouldn't count for much unless I was able to ensure that you had every opportunity for happiness and fulfillment in yours. In the end, girls, that's why I ran for President; because of what I want for you and for every child in this nation.

I want all our children to go to schools worthy of their potential- schools that challenge them, inspire them, and instill in them a sense of wonder about the world around them. I want them to have the chance to go to college- even if their parents aren't rich. And I want them to get good jobs: jobs that pay well and give them benefits like health care, jobs that let them spend time with their own kids and retire with dignity.

Word meanings:

Potential: ability

Instill: introduce

I want us to push the boundaries of discovery so that you'll live to see new technologies and inventions that improve our lives and make our planet cleaner and safer. And I want us to push our own human boundaries to

reach beyond the divides of race and region, gender and religion that keep us from seeing the best in each other.

These are the things I want for you- to grow up in a world with no limits on your dreams and no achievements beyond your reach, and to grow into compassionate, committed women who will help build that world. And I want every child to have the same chances to learn and dream and grow and thrive that you girls have. That's why I've taken our family on this great adventure.

Word meanings:

Compassionate: showing sympathy and concern for others

Thrive: grow or develop well; flourish

I am so proud of both of you. I love you more than you can ever know. And I am grateful every day for your patience, poise, grace, and humour as we prepare to start our new life together in the White House.

Love,

Dad

ನಿಮಗೆ ಮತ್ತು ಪ್ರತಿ ಮಗುವಿಗೆ ನಾನು ಬಯಸುವುದೇನು? ತಮ್ಮ ಮಗಳಂದಿರಿಗೆ ಒಬಾಮ ಪತ್ರ

ನಾನು ಯುವಕನಾಗಿದ್ದಾಗ ಈ ಜಗತ್ತಿನಲ್ಲಿ ನನ್ನ ಭವಿಷ್ಯವನ್ನು ನಾನೇ ಹೇಗೆ ಕಂಡುಕೊಳ್ಳಬಲ್ಲೆ, ಯಶಸ್ವಿಯಾಗಬಲ್ಲೆ ಮತ್ತು ನಾನು ಬಯಸಿದ್ದನ್ನು ಹೇಗೆ

ಪಡೆದುಕೊಳ್ಳಲು ಎಂದು ಸದಾ ನನ್ನ ಕುರಿತಾಗಿಯೇ ಯೋಚಿಸುತ್ತಿದ್ದೆ. ಆದರೆ ಅನಂತರ ನನ್ನ ಕಣ್ಣಿಗೆಳಾದ ನೀವಿಬ್ಬರೂ ನನ್ನ ಜಗತ್ತಿಗೆ ನಿಮ್ಮೆಲ್ಲ ಕುತೂಹಲ ಮತ್ತು ತುಂಟತನಗಳೊಂದಿಗೆ ಪ್ರವೇಶಿಸಿದಿರಿ. ಅಂದು ನಿಮ್ಮ ಮುಗುಳುಗು ನನ್ನ ಹೃದಯವನ್ನು ತುಂಬಿತು. ಬಾಳನ್ನು ಬೆಳಗಿತು. ಆಗ ತಕ್ಷಣ ನನ್ನ ಬಗ್ಗೆ ನಾನೇ ರೊಪಿಸಿದೆ ದೊಡ್ಡ ಯೋಜನೆಗಳೆಲ್ಲ ಇನ್ನು ಮುಂದೆ ಬಹು ಮುಖ್ಯವೆಂದು ನನಗನಿಸಲಿಲ್ಲ. ನನ್ನ ಬದುಕಿನ ಪರಮ ಸಂತೋಷಗಳೆಲ್ಲವೂ ನಿಮ್ಮ ಸಂತೋಷದಲ್ಲೇ ಅಡಗಿದೆ ಎಂಬ ಸತ್ಯ ನನಗೆ ಬಹುಬೇಗನೆ ಅರ್ಥವಾಯಿತು. ನಿಮ್ಮ ಬಾಳಿನ ಸಂತೋಷ ಮತ್ತು ಸಫಲತೆಗೆ ಜೀವನದಲ್ಲಿರುವ ಎಲ್ಲ ಅವಕಾಶಗಳನ್ನೂ ಒದಗಿಸುವ ಭರವಸೆಯನ್ನು ನಾನು ನೀಡದಿದ್ದರೆ ನನ್ನ ಸಂತ ಬದುಕಿಗೇನೂ ಮಹತ್ವವಿಲ್ಲ ಎಂಬುದು ನನಗೆ ಬಹು ಬೇಗನೆ ಅರಿವಾಯಿತು. ನಿಮಗೆ ಮತ್ತು ಈ ರಾಷ್ಟ್ರದ ಪ್ರತಿಯೊಂದು ಮಗುವಿಗೆ ಇಂತಹ ಅವಕಾಶಗಳನ್ನು ಒದಗಿಸಲೆಂದೇ ನಾನು ಅಧ್ಯಕ್ಷ ಪದವಿಗೆ ಸ್ಪರ್ಧಿಸಿದೆ.

ನಮ್ಮೆಲ್ಲ ಮಕ್ಕಳು ತಮ್ಮ ಅಂತಃಸತ್ತ ಅರಳಿಕೊಳ್ಳಬಹುದಾದ ಶಾಲೆಗಳಿಗೇ ಹೋಗಬೇಕು. ಅವು ಮಕ್ಕಳಿಗೆ ಸವಾಲುಗಳನ್ನೊಡ್ಡುವ, ಅವರ ಬಾಳಿನಲ್ಲಿ ಸೂರ್ತಿ ತುಂಬುವ, ತಮ್ಮ ಸುತ್ತಲಿನ ಜಗತ್ತಿನ ಬಗ್ಗೆ ಒಂದು ವಿಸ್ಮಯವನ್ನು ಮನದಲ್ಲಿ ತುಂಬಿಕೊಳ್ಳುವ ಶಾಲೆಗಳಾಗಬೇಕು. ಶ್ರೀಮಂತರಲ್ಲದ ಪೋಷಕರ ಮಕ್ಕಳೂ ಕಾಲೇಜಿಗೆ ಹೋಗುವ ಅವಕಾಶಗಳಿರಬೇಕೆಂದು ನಾನು ಬಯಸುತ್ತೇನೆ. ಅವರಿಗೆ ಒಳಿಯ ವೇತನವಿರುವ ನೌಕರಿ ಸಿಗಬೇಕು, ಜೊತೆಗೆ ಆರೋಗ್ಯಕ್ಕೆ, ಅವರ ಪುಟ್ಟ ಮಕ್ಕಳೊಂದಿಗೆ ಆಡಲು ತುಸು ಬಿಡುವು ಸಿಗಬೇಕು ಮತ್ತು ಅವರು ಘನತೆಯಿಂದ ನಿವೃತ್ತಿ ಹೊಂದುವಂತಾಗಬೇಕು ಎಂದು ನಾನು ಬಯಸುತ್ತೇನೆ.

ನಮ್ಮ ಅನ್ನೇಷಣೆಗಳ ಸೀಮೆಯನ್ನು ಮುಂದಕ್ಕೆ ತಳ್ಳಲು ನಾನು ಬಯಸುತ್ತೇನೆ. ನಮ್ಮ ಬಾಳನ್ನು ಸುಧಾರಿಸುವ, ನಾವು ವಾಸಿಸುವ ಜಗತ್ತನ್ನು ಇನ್ನಷ್ಟು ಸ್ವಚ್ಛವಾಗಿ, ಸುರಕ್ಷಿತವಾಗಿಡುವ ಹೊಸ ತಂತ್ರಜ್ಞಾನ ಮತ್ತು **ಆವಿಷ್ಕಾರ**ಗಳನ್ನು ನೋಡಲು ನೀವು ಬದುಕಿರುವಂತಾಗಬೇಕು. ಪ್ರತಿಯೊಬ್ಬ ವ್ಯಕ್ತಿಯಲ್ಲಿರುವ ಶ್ರೇಷ್ಠತೆಯನ್ನು ಗುರುತಿಸಲು ಅಡಿಯಾಗುವ ಧರ್ಮ, ಲಿಂಗ, ಪೂದೇಶಿಕತೆ, ಜನಾಂಗೀಯತೆ ಮುಂತಾದ ಮಾನವ ನಿರ್ಮಿತ ಎಲ್ಲೆಗಳನ್ನು ಮೀರಿ ನಾವು ಬೆಳೆಯಬೇಕೆಂದು ನಾನು ಬಯಸುತ್ತೇನೆ.

ನಿಮ್ಮ ಕನಸುಗಳಿಗೆ ಯಾವುದೇ ಮಿತಿಗಳಿಲ್ಲದೆ, ನಿಮಗೆ **ಸಾಧ್ಯ**ವಾಗದ ಯಾವುದೇ ಸಾದನಗಳಿಲ್ಲದ ಜಗತ್ತಿನಲ್ಲಿ ನೀವು ಬೆಳೆದು ಬರಬೇಕೆಂದು ನಾನು ಬಯಸುತ್ತೇನೆ. ಮಾತ್ರವಲ್ಲ, ಅಂತಹ ಜಗತ್ತಿನ ಸೃಷ್ಟಿಗೆ ಬದ್ಧವಾಗಿರುವ, ದಯಾಪರತೆಯಿಂದ ಕೂಡಿದ ಹೆಣ್ಣು ಮಕ್ಕಳಾಗಿ ನೀವು ಬೆಳೆಯಬೇಕೆಂದು ನಾನು ಬಯಸುತ್ತೇನೆ. ಕಲಿಯಲು, **ಕನಸು ಕಾಣಲು**, ಬೆಳೆಯಲು ಮತ್ತು **ಯಶಸ್ಸು ಕಾಣಲು** ಹೆಣ್ಣು ಮಕ್ಕಳಾದೆ ನಿಮಿಗಿರುವಷ್ಟೇ ಅವಕಾಶಗಳು ನಮ್ಮ ದೇಶದ ಪ್ರತಿಯೊಂದು ಮಗುವಿಗೂ ಸಿಗಬೇಕೆಂದು ನಾನು ಬಯಸುತ್ತೇನೆ. ಆದ್ದರಿಂದಲೇ ನಮ್ಮ ಕುಟುಂಬವನ್ನು ನಾನು ಈ ಸಾಹಸಯಾನಕ್ಕೆ ಕರೆತಂದಿದ್ದೇನೆ.

ನಿಮ್ಮಿಬ್ಬರ ಬಗ್ಗೆ ನನಗೆ ತುಂಬ ಹಮ್ಮೆ ಮತ್ತು ಅಭಿಮಾನ, ನೀವೆಂದೂ ಉಹಿಸಲಾಗದಷ್ಟು ಅಗಾಧವಾಗಿ ನಾನು ನಿಮ್ಮನ್ನು ಪ್ರೀತಿಸುತ್ತೇನೆ. ಶೇತಭವನದಲ್ಲಿ ನಾವೆಲ್ಲರೂ ಜೊತೆಗೂಡಿ ಹೊಸ ಬಾಳೆ ನಡೆಸಲು ಅಣಿಯಾಗುತ್ತಿರುವ ಈ ಸಂದರ್ಭದಲ್ಲಿ ನೀವು ಸದಾ ತೊರುತ್ತಿರುವ ನಿಮ್ಮ ಸಹನೆಗೆ, ಸಮಚಿತ್ತಕ್ಕೆ ಬೆಡಗಿಗೆ ಮತ್ತು ವಿನೋದ ಪ್ರಜ್ಞೆಗೆ ನಾನು ಕೃತಜ್ಞನಿರುವೆ.

I often contemplate my childhood, Mom.

I am a mother now, and so I know

Hard work is mixed together with the fun;

You learned that when you raised me long ago.

I think of all the things you gave to me:

Sacrifice, devotion, love and tears.

Your heart, your mind, your energy and soul-

All these you spent on me throughout the years.

You loved me with a never-failing love

You gave me strength and sweet security,

And then you did the hardest thing of all:

You let me separate and set me free.

Every day, I try my best to be

SUPPLEMENTARY READING LESSON-1 WAYS OF LEARNING

Preparatory activity:

Have you read any story from The Ramayana or The Mahabharatha? If so, narrate one such story.

This is a small story based on an event from the Mahabharatha, the epic by Sage Vedavyasa. Guru Dronacharya was the preceptor for the Kuru princes – the Pandavas (sons of Pandu) and Kauravas (sons of Dhritarashtra). He, along with another learned man Kripacharya, was teaching various branches of knowledge to the Kuru cousins, along with many others who had joined the Gurukula at Hastinapura, the capital of the Kuru dynasty. One important subject of learning for the princes was archery as a part of military service that the princes of those days had to learn.

Let's read and enjoy the story:

One day Dronacharya ordered his disciples to assemble in the large open ground in front of the Hastinapura palace. All of them assembled there.

Drona said, “Boys, I have a test for you. Are you ready?”

“Sure, Sir,” said the boys enthusiastically.

“Get ready with your bows and arrows and come to this spot, as I call you,” said the Guru indicating a mark on the ground. “Later you have to shoot the target on top of the tree.” The Guru had set up an artificial bird (made of wood and grass) on top of a branch of the tree.

He then called one of them and said, “Come here”. The boy obeyed the Guru. Then the Guru showed a big tree at the end of the ground.

“Can you see the tree?” Drona asked.

“Yes, Sir.”

“Look at the top and tell me what all things you see.”

“I can see the tree, its trunk, branches, the sky over it and the ground below it.”

The boy was sent back.

Then Yudhishtira, the eldest of Pandava brothers was called and the Guru put him the same question. “Can you see the tree, the bird on its top and other things around?”

Word meanings:

Preceptor: a teacher, an expert

Dynasty: a family of kings or other rulers whose parents, grandparents, etc have ruled the country for many years

Archery: the sport or skill of shooting with a bow and arrows

Disciple: pupil, learner

“Yes, Sir,” Yudhistira replied. “I can see the tree, the bird, my brothers, other friends and everything.”

“No, my boy, you cannot shoot the target,” said Drona, and called other princes one by one, asking them the same question.

The boys answered almost the same way. Some said, “I can see only the tree”. Others said, “I can see everything.” Yet others said, “I can see the branch of the tree and the bird,” and so on.

Then Drona called Arjuna and asked, “Can you see the tree, the bird on its top and other things around?”

Arjuna replied, “No Sir, I can see only the bird and nothing else.”

“Very good,” said Drona and asked again, “Can you see the bird?”

Arjuna replied, “No Sir, I can only see the neck and the head of the bird.”

Drona was pleased. He ordered, “Shoot your arrow.”

Arjuna did so and the arrow hit the false bird’s neck. The bird fell down on the ground. All the boys in the group, except the jealous Duryodhana, clapped and congratulated Arjuna. Drona embraced Arjuna, blessed him and said, “See my dear boys, concentration and focus are the keys to success. Be focused always.”

On another occasion, Drona was washing his feet on the side of a stream. A crocodile grabbed his foot. Though he could ward it off easily, Drona pretending panic, shouted loudly: “Boys, Ah! I am in danger. A crocodile has caught hold of my foot. Please help me, save me.”

Word meanings:

Ward off: prevent from happening

Panic: sudden uncontrollable fear or anxiety

Stare: look fixedly at something

Awestruck: showing a feeling of wonder and fear

The boys who were standing a bit away from the bank of the stream were awestruck and confused. But the brave and ever-ready Arjuna responded quickly.

Immediately he set an arrow to his bow, shot it into the stream aiming at the right point. It infused the crocodile and drove it away but it did not hit the Guru's foot. Such was Arjuna's skill.

The Acharya said, "Boys, look at Arjuna's feat. His dexterity, prompt and proper responsive actions are other keys to achieve the goal and success."

Word meanings:

Infuse: fill

Feat: an achievement that requires great courage, skill or strength

Dexterity: skill in performing tasks

Responsive: reacting quickly, in a positive way

LESSON-2 CHANNAPATNA TOYS

Preparatory activity:

1. Can you locate the following places on the Karnataka map?
 - a. Mysuru
 - b. Bengaluru
 - c. Ramanagara
 - d. Channapatna
2. Have you ever visited Channapatna? What is Channapatna famous for?

Introduction:

Channapatna is the name of a small town between Bengaluru and Mysuru. Channapatna is famous for its beautiful and colourful toys. These toys mainly attract children. Janapada Loka, a folklore center, is near Channapatna. Here we can see articles or things used in olden days in the farming activities. Kengal Anjaneya Swamy, a beautiful temple, is also near Channapatna. It is near the home town of our late Chief Minister Mr. Kengal Hanumanthaiah. The temple attracts thousands of devotees from different parts of the state.

Let's read and enjoy the lesson:

Divya and Muktha were sisters. Both were school-going girls. It was a Sunday. Both the sisters wanted to go out and enjoy the day. At that time their grandpa called them. He was reading a newspaper. Divya and Muktha saw beautiful pictures of toys in the newspaper. They pestered their grandpa to tell them a story about toys. The following is what grandpa told them about the toys.

Tippu Sultan was a famous king. He was a good ruler. He loved children very much. He brought Persian toy makers to his kingdom. Persian toy makers trained local artisans. They left this wonderful art in our state.

Once I went to Channapatna. Channapatna is also known as 'Gombegala Ooru'. I saw 'MAYA ORGANIC' (an NGO) there. In 'Maya Organic', people worked hard to get money from this great art.

Do you know how the people were making toys? People used to chip away on a piece of wood. But now in 'Maya Organic' workers chip away on power lathes and make toys.

Channapatna toys are special. They are special because vegetable colours are used in them. These toys are sent to foreign countries. But there

is every chance of rejection if they are not in good condition.

I met Mr. Girish. He has got eighteen years of experience in toy making. He said, “We are a family of toy makers. My father, now 74 years old, my brother and all of us have been in this field of making toys for a long time. We make ‘Saada Bombe’ (plain toys).”

He told me, “These toys are world famous. They are protected as a geographical indication (GI) under the WTO (World Trade Organization). These toys are made out of Aale Mara (Ivory wood) or Wrightia tinctoria tree.”

The government of Karnataka is helping the toymakers. Trainings is being given with the help of KSHDC (Karnataka State Handicrafts Development Corporation). The government has constructed a Lacquer ware craft complex on Tatte Kere Road. Other than toys, they make cricket bats, wickets, photo frames, trophy bases, spectacle holders, etc. Financial assistance is being provided to the artisans with the help of Dutch Government and the 'VISHWA' scheme of Government of Karnataka.

Kengal Anjaneya Swamy Temple is near this famous city. This was renovated by Shri. Kengal Hanumanthaiah. It is beside Bengaluru-Mysuru highway. Thousands of people visit this temple. Famous cine actor Dr. Rajkumar has sung songs in praise of this God.

We have Janapada Loka near Ramanagara. Here we can see lots of folklore articles of rural people. It was founded by the late Dr HL Nage Gowda. In Janapada Loka training is given to young artists to continue our tradition, culture and art. Every aspect of rural folk culture is taken care of by this institute.

Divya and Muktha, the two sisters, enjoyed listening to their grandpa's talk. They decided to visit Channapatna and Ramanagara with their grandpa in the summer vacation.

LISTENING TEXT UNIT-3

MY FRIEND “SWEETY”

Papa is so nice that he gifted me a friend “Rabbit”, a gift none of my friends have. The rabbit is white like cotton and her eyes are beautiful like pomegranate seeds, but a little bigger. She has beautiful long ears. Papa, Amma and I decided to call her “Sweety”. Amma takes care of Sweety. Sweety loves to eat carrots and raw vegetables. Amma says vegetables eaten raw after washing, are good. So my friend Sweety and I eat together in the evening.

When I come from school, I see Sweety waiting for me. She jumps on me and I carry her. I kiss her and we play in the small garden we have behind the house. Lots of flowers grow there. It is a very beautiful garden. On Sunday morning, I water the plants. Uncle Roshan came from Mangaluru. He liked my friend Sweety. When I was playing in the living room, uncle Roshan, who is my father’s friend said, “I have not eaten rabbit meat for a long time. Can I take it while I go back tomorrow? You all don’t like eating meat and we don’t get to see rabbits these days. My family and I will have a feast.”

My Papa and Amma became angry but they did not talk. They kept quiet and continued to watch TV. Uncle Ram got up, went to the table and started doing his office work. I ran to see where Sweety was. She was playing on the lawn. I immediately carried her to my friend’s house. I asked my friend to keep Sweety for a day and said I would collect her the next day. I left some carrots for her too and came home.

Since I take care of Sweety, Papa and Amma did not know what I had done. Early morning, after breakfast, Uncle Ram asked for Sweety. Papa and Amma kept quiet, uncle Ram looked around. Nowhere could he find her. And then he left for Mangaluru. My Sweety is safe forever.

VISUALLY CHALLENGED MAN DEVELOPS A WEBSITE

UNIT-6

Beethoven, the great composer, was deaf. Bob Mathias, the great Olympic decathlon winner, was once a cripple. He was only seventeen years of age when he completed in the 14th Olympiad in London in 1948 and won laurels.

A handicap is no impediment to greatness. An example of this is Dr Vinod Sena, a retired English professor from Delhi University.

Dr Sena, a visually challenged person since infancy, is the brain behind developing a website. It is no ordinary website, but a 'site (sight) for the unsighted'. The extraordinary feature of the website is that it can be navigated without a mouse. With text-to-speech software, it becomes audio-based and it can be used by the visually challenged without sighted help.

UNIT-8

Dear Grown-ups,
Please leave all the flowers there
And don't cut down the trees.
We need the trees to make fresh air
And flowers to feed the bees.
Please don't always use your car
To take you everywhere.
Because the fumes go very far
And heat the atmosphere.
Then soon the sun will be too hot
And all the plants will die.
So, please get out and walk a lot
To see the clear blue sky.
Then we will run and jump and play
And grow up strong and tall;
Then we'll be happy everyday
And we will thank you all.
With love from the children.
